01 CHAIRMAN'S WORD

Dear Kingdom Family,

This first half of 2026 carries the mark of exceptional collective commitment — from our partners, our donors, and our volunteers. For this year 2026, we had declared a word of elevation for our Nation; and six months later, we already see it taking shape, carried by everyone's involvement.

OUR VERSE FOR THIS HALF-YEAR

*"You said: I know you by name, and you have found favor in my sight... Now show me your ways, that I may know you. Consider that this nation is your people... **Bring this people up.**" — Exodus 33:12-15, our word for the year 2026, reminding us that God Himself walks with us to raise up this people.*

Midway through, we received a complementary word, **John 17:19**: *"And for their sakes I sanctify myself, that they also might be sanctified through the truth."* This verse resonated as a clear call to multiply and strengthen disciples and local leaders, to better carry the growth of the Mission.

Our existence was destined to be a blessing to others. Let us keep investing in people — it is the only way to build a structure able to sustain the fruits of transformation.

LOOKING AHEAD

This half-year confirmed a season of growth and structuring: new members are joining the team, new partnerships are forming, and our major projects are moving forward — the Paradisakely vocational school, the Balisama Family Clinic, and the future Paradisakely community health center. The second half of the year looks to be a time of consolidation: strengthening what has been planted, training more local leaders, and advancing these structuring projects for the Mission. May God keep us united and dependent on Him going forward.

With gratitude,

Sedera Rakotoaritsifa
FOUNDING CHAIRMAN

02 TEAM NEWS

TEAM RETREAT

February 7 — La Piscine, Ambohimalaza. Retreat and celebration of the new year and the fruits of 2025, marked by testimonies from every leader and partner. This also opened JFK's 20th anniversary.

February 27 – March 9 — Mauritius. Mission and participation in the 24th anniversary conference of CKM (Cornerstone Kingdom Ministries), the church of Apostle Steve, our founder's spiritual father. JFK's Board's first international mission, with 9 members present. A glorious mission during which we saw God's hand provide at every step. There we committed to praying every morning at 5am (except Sundays) — a rhythm we still keep today.

June 27 — Ambohimalaza HQ. Mid-year crossing: a time of fasting and prayer, with each department's goals refreshed.

NEW TEAM MEMBERS

Sylvie Razafindrabe — a faithful member from the start, sent out in mission

A JFK member since even before the association's founding, Sylvie has fervently supported Jesus's work for years, in many capacities. For this new stage, the Lord called her to become a full-time missionary in February 2026, tasked with structuring JFK's action nationally and internationally as the Mission's cross-functional coordinator. A communications expert and teacher of the Word, she feeds God's people with practical, engaging biblical truth through media. We are grateful to have her with us, in the field and at the strategic level.

Fiadanana Elohim

Since May 2026, an intern within our Kingdom Business (social enterprise) in Paradisakely. Our founder's daughter, she is studying business management at ISCAM Business School (L2). A valuable help in our efforts toward the Mission's self-sufficiency.

MAY 1, 1996 – MAY 1, 2026 · 30 YEARS

The 30th anniversary of the moment our founder, Pastor Sedera, gave his entire life to Jesus Christ. It was a time when he was alone in his small apartment in Ambatomainty; he had just literally obeyed the Lord's command to give everything he had to the poor. He did it, and the Lord told him in an audible voice: "You have received the Kingdom."

OTHER NOTABLE NEWS THIS HALF-YEAR

April 12, 2026: arrival of the CURE Project container — long-awaited materials and logistics for our surgical clinic, the Balisama Family Clinic.

May 14–17, 2026: 1st Ambohimalaza Fair, with the participation of Paradisakely Shalom Land. A true success, the tangible fruit of two months of 5am morning prayer: over 40,000 visitors, exhibitors satisfied with their sales, and enthusiastic visitors.

June 26 — Independence Day: our founder, now mayor of Ambohimalaza, addressed a speech to about 2,000 people — a cultural and prayer day for the municipality and its innovative projects.

03 TESTIMONIES

"I came back completely delivered from tobacco."

New to his local church, his pastor invited him to Paradisakely for Pentecost. He left completely delivered from tobacco after receiving the power of the Holy Spirit — it's already been two months since he last smoked.

BROTHER TOF · LATE JUNE 2026

"From about twenty disciples to over 70 fervent believers."

After the team's visit to Satrana in January, many new believers joined the local church. The number of disciples grows every week; a larger church building project is underway to accommodate everyone.

PASTOR DOLLY · FEBRUARY 2026

"He is completely healed!"

After receiving power during the Pentecost training, a team met a paralyzed man whose entire left side was numb. They prayed for him — he is now completely healed.

MISSIONARY SOLOFO · MAY 2026

"The pain is completely gone!"

Sick for over ten years, with constant pain in his right foot, this patient had been hospitalized for a costly laser treatment (3 million ariary) he couldn't afford to continue. After a single acupuncture session, the pain completely disappeared.

ACUPUNCTURE PATIENT · BALISAMA CLINIC · JANUARY 2026

"I am completely healed of my respiratory problem."

Jeannot is completely healed of his respiratory problem after receiving treatment at the Balisama Family Clinic. He has now been free of nicotine addiction for two months — he no longer smokes.

JEANNOT · BALISAMA FAMILY CLINIC

"He is completely healed — 4 months without a single episode!"

This family's second son had suffered from lingering, recurring pneumonia since birth, with heavy medication costs every month for three years. During a mission with Sébastien's German team, Emmanuel shared a dream of a little boy completely healed; they prayed for the child. For four months now, no episodes — he is completely healed!

MARC, FOUNDER'S DEPUTY · AMBOHIMALAZA

"She jumped out of bed and got her appetite back. And my friend was delivered and baptized a week later."

One morning, while fetching water at the pitcher, my daughter Rosia was struck by an unexplained stomach ache. She missed school for two weeks, bedridden and weak. School leaders came to visit us at home and prayed for her. After the prayer, Rosia jumped out of bed and immediately got her appetite back. Her father, overwhelmed by this miracle, received the Gospel that same day.

A friend of mine was under the grip of an evil spirit. Neither local medicine nor medical treatments had been able to help her. I advised her to meet the servants of Jesus Christ at Paradisakely who had helped my daughter. They prayed for her: she was delivered and baptized that very day.

ROSIA'S MOTHER · AMBOHIMIARINA

Praise God! To Him alone be all the glory.

04 TRAINING & EQUIPPING

EASTER 2026 — VOHIBARY, VATOMANDRY

In April, 70 people (children, young missionaries, teachers, and Board members) mobilized in Vohibary, a village recently reached by our monthly missions (about 900 residents). A highlight in partnership with "By Your Side," which ran a hygiene and health campaign for children — toothbrushes, toothpaste, and soap distributed, in a region particularly exposed to mosquito- and worm-borne diseases.

Accompanied by a medical mission that received about 200 patients, this action opened hearts to the Gospel: during the open-air preaching, nearly every hand went up to receive the Lord, with healings and deliverances observed. New leaders and officials from neighboring villages were also trained in biblical stewardship, around the theme "Be Prepared" — especially for the Lord's return.

9 baptisms

~100 leaders trained and equipped

~800 people heard the Gospel

1 local church strengthened

PENTECOST 2026 — PARADISAKELY

A week-long training in May, gathering **500 participants** around the theme "Being Filled With Power From Above, and Knowing How to Steward Well" — because without power there is no impact, and without good stewardship there can be no multiplication. Five local trainers and four international trainers (USA, Canada, Germany, Mauritius) taught practical life with the Holy Spirit, with times of prayer and impartation.

Much renewal and spiritual refreshing, doctrinal strengthening, and an exhortation on the importance of discipleship. The week concluded with 9 additional baptisms and a large meal around the Lord's Supper.

HALF-YEAR OVERVIEW: 18 NEW VILLAGES REACHED

According to our latest statistics (May 2026), JFK is now present in **526 villages**. This half-year focused on strengthening leaders and discipleship, to better structure the Mission's rapid expansion.

KEY FIGURES THIS HALF-YEAR

14,000+

People who heard the Gospel (heli-borne mission and ongoing evangelism)

Churches planted

4

New mission partners

JANUARY

Vohibary – Falafa, Niherenana — mission with youth from Home Church and École Destiné

Heard the Gospel: 74

These young people's stay at Paradisakely deeply transformed their view of rural life realities. Moved by the needs they discovered, they chose to concretely support our mission by donating to the Vohibary school, an annex school of Paradisakely. Their participation in our solidarity tourism program also contributes to the development of our educational mission and the training of children in remote villages.

**Satrana – Masomeloka**

Consultations: 54

Heard the Gospel: 1,800

Baptisms: 6

Leaders trained: 19

Satrana is Pastor Dolly's mission post, located in a village where the majority of the population had not yet heard the Gospel. From our arrival, we received a warm welcome from the fokontany chief and the community. Throughout the mission, God manifested His power through many healings and deliverances. These testimonies encouraged many people to draw near to Christ, contributing to remarkable growth of the local church.

Maromitety – Mahanoro

Consultations: 52

Heard the Gospel: 640

Baptisms: 9

Leaders trained: 37

Many mosquito-related illnesses were recorded in the village. To raise awareness of hygiene and prevention, we mobilized children, youth, and teachers for a large village clean-up. This initiative was accompanied by a strong time of worship, preaching, and fellowship with local disciples, encouraging and strengthening believers.

FEBRUARY

Antanadava – Vatomandry, with Mission Nouvelle Vie

Consultations: 67

Heard the Gospel: 234

Baptisms: 11

The Mission Nouvelle Vie missionaries, from Quebec, spent a lot of time with children through games, activities, and distributions of clothes and shoes, to their great joy. In Antanadava, the team visited a village where the chief's daughter, from a background of idolatry, was healed of long-standing infertility. Following this healing and our missionaries' regular visits, she and her whole family gave their lives to the Lord.

MARCH

Voadiavolana — outreach with the German team

Heard the Gospel: 120

Leaders trained: 22

Ambatolampy — outreach with the German team

Heard the Gospel: 130

Baptisms: 3

Leaders trained: 51

With the German team, led by Sébastien and four missionaries from Germany, we experienced moments where the Holy Spirit's guidance was remarkably evident. Before each outing, we took time to pray, during which God sometimes revealed the people He wanted us to meet. One morning Sébastien shared a vision showing a person with a breathing difficulty and an image of a skull. In one of the villages near Paradisakely, this guidance led us to a young boy suffering from severe respiratory problems. Entering the home, we found a tablecloth decorated with skulls, recently bought by the family, and the mother told us she had since been plagued by nightmares while her son's health kept declining. After praying for the child, the Lord completely healed him. Deeply moved by this intervention of God, the family chose to receive Jesus Christ, and when we returned a few days later, the father had also converted. Today, they wish to join the Paradisakely church.

Antsifo — outreach with the German team

Heard the Gospel: 250

A wonderful mission with the Paradisakely Sunday school children.

Ambohimiarina — outreach with the German team

Heard the Gospel: 210

This is where we met Rosia (see the Testimonies section).

APRIL

Transformation Camp, with Revival Messenger

Baptisms: 5

Leaders trained: 27

City youth transformed by the fruits of the bush mission.

MAY

Pentecost Training — Paradisakely

Baptisms: 9

Leaders trained: 450

See the Training & Equipping section.

JUNE

June 23–24 — Ambatomirahalaky, Vavatenina

Consultations: 18

Extractions: 45

Heard the Gospel: 600

Leaders trained: 20

Despite the weather, we press on with the mission. Jesus has already paid the price: everyone has the right to hear and receive.

June 24–25 — Ambatorohizana, Soanierana Ivongo

Consultations: 107

Extractions: 16

Heard the Gospel: 2,000

Leaders trained: 40

A population, where 70% of the old person are affected by blindness.

07 MEDICAL MISSIONS & INTERVENTIONS

MEDICAL FIGURES · JANUARY TO JUNE 2026

464

consultations in remote areas

105

dental extractions

282

hospital / clinic consultations

196

acupuncture treatments

ON THE GROUND

This half-year, our medical team served **7 villages**, treated **660 patients**, and performed **105 dental extractions**, including 2 emergency cases — among which two notable evacuations:

- A little boy with sickle cell disease, taken in by a Board member. After several medical tests, he received his treatment in time — he is doing much better today.
- Klein, Faneva's father, was operated on for an unknown abdominal illness. He is currently recovering.

BALISAMA FAMILY CLINIC

Our clinic's building is already operational!

SPECIFIC MEDICAL TRAINING

We are currently on Module 3 of our acupuncture training. Treatments continue for about twenty patients in our clinic building; we have learned a new technique for supporting stroke victims. Our team also received physiotherapy training from physiotherapist Tahiry Razafimahefa.

UPDATE OF APRIL 12

Arrival of the materials container for our clinic, sent by CURE Project (USA – Arizona). Administrative procedures for opening are underway, with a slight slowdown due to changes among the public officials concerned.

Prayer needs: medical staff and the clinic's operating budget.

PARADISAKELY PRIVATE SCHOOL — OFFICIAL EXAM RESULTS

100%

CEPE PASS RATE

8/11

ADMITTED TO BEPC

SCHOOL / ANNEX OPENINGS

This half-year, the opening of new schools was deliberately paused to better consolidate existing ones.

- **Follow-up visits:** 18, across 6 annexes — 2 remote schools visited every two months, and 4 schools in the same region visited monthly
- **Training programs organized:** 6
- **New teachers recruited:** 14
- **Student enrollment:** 289 at Paradisakely Private School, and 200 across the annexes combined
- **New students enrolled this half-year:** 125

PROJECT: VOCATIONAL AND PROFESSIONAL SCHOOL (2026–2027)

After Edward and Rova's visit to our Ambohimalaza HQ to evaluate our school (GAA framework), the Holy Spirit gave us clarity: the next step is opening a school that leverages what we already do well — a vocational school that highlights local resources and assets. Four tracks are planned: Farming (agriculture and livestock), Construction (masonry and carpentry), Tourism and hospitality, and IT / e-media & communication. Details of this project are presented at the end of this report, in the "Ongoing Projects" section.

09 KINGDOM BUSINESS

FISH FARMING

Activity slowed somewhat due to the southern winter: fewer deliveries to Antananarivo. No new positions created this quarter.

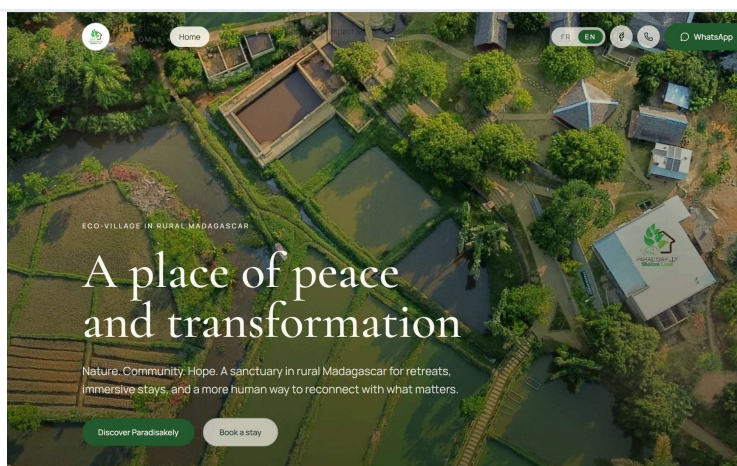

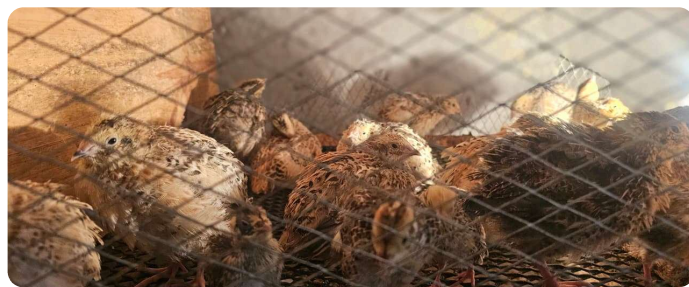

POULTRY — QUAIL FARMING

New activity launched with 50 eggs, of which 22 hatched. Six months later, the operation counts about **300 birds**, with **200 eggs per week**. The activity was extended to Paradisakely with the installation of 4 new operational incubators, also used for Kuroiler chicken eggs and other growing breeds.

2 new jobs created.

PARADISAKELY SOLIDARITY TOURISM

Launch of our first website: www.paradisakely.com. First participation in a fair, with sales of our solidarity products exceeding expectations. Our goal is to reach a 15% occupancy rate in 2026, aiming for 50% by 2030.

PARADISAKELY.COM — OUR FIRST WEBSITE

ANNOUNCEMENT

Relaunch of our institutional website — under construction: www.jesus-family-kingdom.org

10 PARADISAKELY

VISITS & PARTNERSHIPS

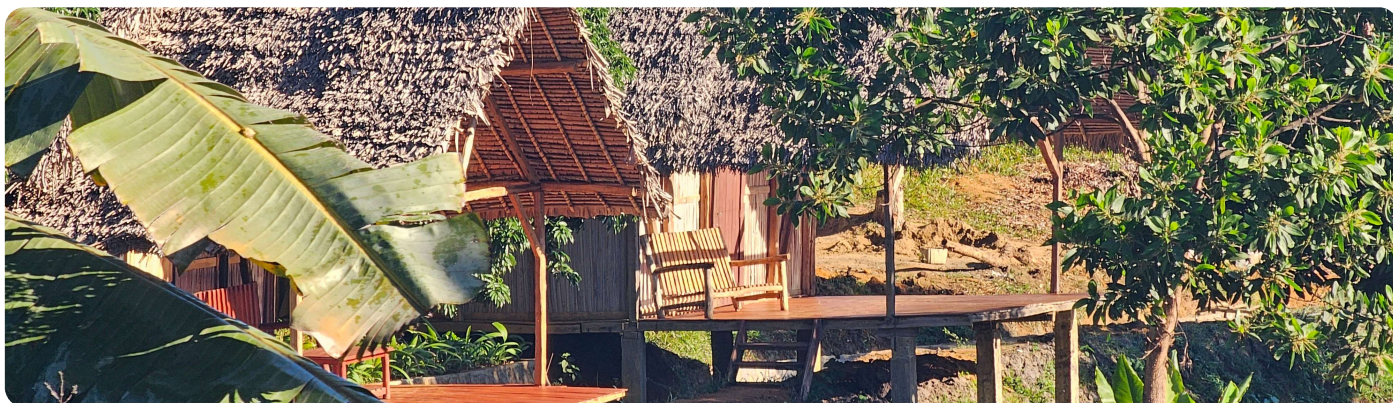

March: Felix conducted a fact-finding visit of the center's projects and needs. 49 leaders were trained during this visit.

The Canadians from Mission Nouvelle Vie shared scoubidous, t-shirts / jerseys and football shorts with balls for all the school's children — **289 students benefited.**

NEW INFRASTRUCTURE

- Construction of a new family bungalow, completed after the visit of 20 Mission Nouvelle Vie missionaries — a project led by our youth, freshly trained in construction and carpentry by the Mission's senior craftsmen.

11 ONGOING PROJECTS

BALISAMA FAMILY CLINIC — AMBOHIMALAZA

Our surgical clinic project in Ambohimalaza is progressing: the materials container sent by CURE Project (USA – Arizona) arrived on April 12, 2026. Administrative opening procedures continue, with a slight slowdown related to changes among the public officials concerned. The team continues its acupuncture training (Module 3) in parallel and has just received physiotherapy training from Dr. Tahiry Razafimahefa. About twenty patients are already being followed in the clinic building.

Prayer needs: medical staff and the clinic's operating budget.

NEW PROJECT: PARADISAKELY COMMUNITY HEALTH CLINIC

Paradisakely is Jesus Family Kingdom's pilot village. For over twenty years, our mission has worked toward lasting transformation of underserved rural areas: over **520 churches planted**, **10 rural schools created**, more than **500 students supported each year**, and about **11,000 patients treated annually** through our health programs.

Access to care remains a major challenge in the Batanjy region. Health facilities are rare and often located several kilometers from remote villages; many families have neither transportation nor the financial means, and are forced to rely on traditional home care, particularly for childbirth.

Last March, a 21-year-old young mother died from complications after giving birth at home. Because of the distance to health facilities and a severe infection, medical help arrived too late. Similar situations sadly continue to occur in the region.

WHAT THE CLINIC WILL OFFER

- General medical consultations
- Maternal and child health
- Safe deliveries
- Preventive care and community health education
- Basic surgical procedures, in partnership with the Balisama Family Clinic

EXPECTED IMPACT

- Reduced maternal mortality and preventable deaths
- Improved access to care for rural families
- Strengthened health awareness and disease prevention
- Greater community well-being and resilience
- Better access to health services for surrounding villages

Ultimately, this clinic aims to be a center of hope and access to care for underserved rural populations, in service of a broader community transformation across the region.

PARADISAKELY EDUCATIONAL DEVELOPMENT INITIATIVE

To address the educational and economic challenges facing rural youth, JFK is launching an initiative combining academic education, vocational training, entrepreneurship, and leadership development. The project plans the construction of two permanent classrooms (about 30 students each, for a capacity of 60 learners), plus a third building serving as a practical training workshop. That will start this coming November

VOCATIONAL PROGRAM (3 YEARS)

- **Year 1:** French, English, leadership, entrepreneurship, biblical studies, exploring the tracks
- **Year 2:** choosing a specialization
- **Year 3:** advanced specialization, internships, and business development

Tracks: Agriculture & agro-industry (livestock, aquaculture, processing) · Tourism, hospitality & creative industries · Construction & rural trades (masonry, carpentry, local materials)

OUR CONTRIBUTION SO FAR

- Land for the project
- Concrete blocks already produced
- Locally sourced wood and materials
- Volunteer labor and project coordination

OVERALL BUDGET

\$14,727 TOTAL PROJECT COST	\$3,219 LOCAL CONTRIBUTION	\$11,553 AMOUNT NEEDED
---	--	--

Thank You

This first half of 2026 once again carries the mark of God's faithfulness and the strength of collaboration between missionaries, partners, and friends. Every step forward — one more village reached, a child in school, a patient cared for, a stone laid for the clinic or the vocational school — is the fruit of a shared vision and collective commitment in service of the Kingdom.

We express our deep gratitude to all who, in various ways, have supported this Mission — through prayer, financial support, professional expertise, or presence in the field. Thank you to our partners and friends whose prayer, generosity, and encouragement have been a true pillar throughout this half-year.

We remain in endless admiration and gratitude toward our Lord and King, Jesus Christ, for the privilege of representing Him and being stewards of His Kingdom and His grace among every tribe and tongue in Madagascar. To Him be all the glory, forever!

JESUS FAMILY KINGDOM
